INSTRUCTIONS

The term "BRAND" means any and all words, terms, designs or trademarks used in connection with one or several grades of fertilizers and/or agricultural minerals.

As related to fertilizers, "GRADE" means the minimum percentage of total nitrogen, available phosphorus or phosphoric acid and soluble potash stated in the order given and when applied to mixed fertilizer, shall be in whole numbers only.

As related to agricultural minerals, "GRADE" means the minimum percentage of guaranteed analysis.

APPLICATION FOR REGISTRATION: For each product listed, attach a copy of the label and other written, printed or graphic matter to be used upon the commercial fertilizer and/or agricultural mineral, or on any of its containers or wrappers, or which will accompany the commercial fertilizer and/or agricultural mineral at any time.

If registration is applied for in the name of more than one company, an application should be submitted for each.

LABELING: Each container must bear a label showing the following information: (Bulk shipments to be accompanied by written statement).

1. Name and address of the person guaranteeing the product.
2. The brand and grade.
3. The guaranteed analysis showing the minimum percentage and source of plant food claimed in the following order and form:

Total nitrogen percentage source
Available phosphate/phosphoric acid percentage source
Total phosphate/phosphoric acid percentage source
Soluble potash percentage source

All other plant food elements and agricultural minerals in accordance with NRS 588.180, section 5.

COVER SHEET: Under brand list the design or trademark used.

Under grade list the fertilizer composition using standard fertilizer nomenclature, (i.e.) nitrogen, phosphate, potash (10-10-10). In the case of trace elements and/or agricultural minerals, the percentage of each principal constituent.

Fertilizers and agricultural minerals sold in packages of less than one pound are exempt from registration. Liquid fertilizers tonnage reporting is to be computed on the basis of 8 pounds per gallon.

Nitrogen, phosphoric acid and soluble potash used as a seed coating or as a component of strips, carpets, or similar seed specialties are not considered fertilizer if less than 1 percent.

PLEASE NOTE

A registrant who offers a fertilizer or agricultural mineral for sale before registration of the product shall pay an amount equal to twice the registration fee for registration of the fertilizer or agricultural mineral (NRS 588.170)
